- Lens Thickness: 4.25 mm
- Len's Material: Polycarbonate
- Lens Color:
 - Clear
 - Tinted (gray)
- Mounting hardware material: Nylon
- Size: Universal
- COO: China

STANDARDS & COMPLIANCE:

- ANSI Z87+ Rated
- OSHA-compliant

APPLICATIONS & CARE:

The H2 visor is designed to protect users from impact hazard and flying debris. It is compatible with both the H2-EH and the H2-CH. It comes in 2 variations, clear and tinted. The clear version is typically used in settings with normal to low light settings, whereas the tinted version is used in daylight where vision can be impacted by UV rays. The H2 Visor is coated with anti-fog and anti-scratch properties and can be used in construction, manufacturing and/or woodwork settings.

To care for the H2 Visor, always inspect prior to use for any impact damages or deep scratches. Wash with warm water, and avoid using harsh chemicals. When storing, keep in a dry location away from direct sunlight.
